**United Way of Greater Simcoe County's
50th Anniversary**

Sacred Space

Melanie Rekola is owner and Landscape Designer of Sacred Space Landscape & Design; an environmentally conscious, design/build Landscape Company serving Barrie and area. She has the yin/yang approach to landscape design; there need to be both the hard and soft elements to make a space truly spectacular. An accomplished artist and creative dynamo, Melanie pairs her talents with husband Andrew Beattie, the construction manager of Sacred Space. Andrew's keen attention to detail and 20-year landscape construction career makes the couple produce landscapes that are not only beautiful, but functional as well: meant to withstand the test of time.

Now in its 9th year, Sacred Space is a multi award winning company offering the unique service of both design and construction expertise.

Sacred Space Landscape & Design will transform the open upper flagstone terrace into an intimate and comfortable seating and alfresco dining area. An outdoor sofa will be placed with a free standing "Living Wall" behind. A "Living Wall" is a system where plants are inserted, then after rooting the wall system is installed vertically. It is truly a thing of beauty. With all the texture and colour of the mass planting of Sedum, the wall will look like a tapestry. Anyone sitting on the sofa beneath will be surrounded by green. A large Unilock bar and stools will be installed as well, and lush plant material will be placed throughout the space. A large Japanese Maple and established Serviceberry are two existing features that will ground and compliment the area. See this area transformed from an exposed and unusable space, into a popular destination!
